## **FUMIGATION ALLOWANCE FORM INSTRUCTIONS**

1. This completed form must be received by the Ventura County Agricultural Commissioner (CAC) by March 20, 2009 if you intend to fumigate between May 1 through October 31, 2009.
2. You must provide specific pesticide product information, unless this is a supplemental request.
3. After you receive your initial allowance, you may use this same form to request a supplemental allowance. The Ventura CAC will reallocate any unused allowances on the first Monday of each month beginning in June. You do not need to specify a product, application rate, or fumigation method for a supplemental request, but you need to provide all other information. You must also calculate and specify the pounds of additional emissions (not product) needed. Instructions and tools to assist in calculating the emissions are available from the Ventura CAC or [www.cdpr.ca.gov](http://www.cdpr.ca.gov).
4. Failure to submit complete, accurate, and timely information to the Ventura CAC could prevent him/her from issuing you a permit to fumigate your fields for the permit year.
5. Contact the Ventura CAC as soon as possible if you have any questions about this form and/or the information required or to schedule an appointment to review your application. Phone (805) 933-2926.
6. Form can be submitted by mail or fax: Attn: Emission Allowance Request, PO Box 889, Santa Paula, CA 93061, fax: (805) 525-8922.
